We are really happy that we got the chance to meet new friends!

Скъпи приятели,

държите брошура, създадена в рамките на международния проект „Да бъдем приятели и да помагаме на природата заедно“ Този проект стартира на 1 септември 2018 г. и ще продължи до юли 2021 г. Въпреки това, ние вярваме, че приятелството възникнало по време на изпълнението на проекта ще продължи много по-дълго. Нашият проект реализира много различни дейности - учениците на нашите училища обменяха информация за своите училища и държави, изпращаха си плакати и презентации и се срещат визуално по време на видеоконференциите. Основната цел на проекта е защита на природата и околната среда, търсейки начини как да се спре унищожаването на нейната естествена красота. Много важен резултат е личния пример в рамките на обмяна между ученици и учители, общуването на чужд език и премахване на бариерите в контакта с деца и възрастни от чужди държави. Силно вярваме, че сме изпълнили целта на проекта. Нашите ученици, учители и родители имаха възможността да подобрят своите комуникативни умения на английски език. Всички ние намерихме нови приятели, с които смятаме за продължим да общуваме и реализираме бъдещи проекти. Поради ситуацията с COVID 19 удължихме проекта на проекта до юни 2021 г. Вместо планираната молибност в Испания всички партньори решихме да проведем онлайн седмица с различни дейности през пролетта на 2021 г.

Dear friends,

you are holding a brochure which was created within the running of the international project **Let's be friends and help our nature together**. This project started on 1st September 2018 and will last up to July 2021. Nevertheless, we believe that friendship which originated during the running of the project will last far longer. Our project dealt with many various activities - the pupils of our schools exchanged the information about their schools and countries, they sent posters and presentations to each other and met visually during the video conferences.

The main topic of the project is the nature and countryside protection, looking for the ways how to stop the damaging of the natural beauty. A very important output are the personal meetings in the frame of the students exchanges, communication in foreign language and destroying the barriers of the shyness in the contact with children and adults from foreign countries

We strongly believe that we have fulfilled the aim of the project. Our students, teachers and, of course, parents used the opportunity of obtaining and improving their communicative skills. In practice, they verified them mainly - all of us found new friends, which we consider as incredibly wonderful.

Due to the current situation we prolonged the time of the project up to June 2021. Instead of the planned meeting in Spain all the partners decided to hold an on-line meeting in spring 2021.

## Activity number P1 - Posters creation MY TOWN, MY COUNTRY

One of the first tasks was to pass the information about our towns and countries to our partners' schools. We created posters, presented them at our schools, later to our friends.

There is a possibility to see all of them at our common eTwinning Twinspace account.

## Activity number P2 - presentations created by students COUNTRY, OUR NATURAL ENVIRONMENT

But posters were not enough. The next step of getting known our countries and towns better was creating of the PowerPoint presentations. We uploaded them as well into eTwinning Twinspace, some of them were presented within the first students meeting in Kolín in May 2019.

During our lessons, we watched them and studied all the presentation sent by our friends, so creating the presentation was not the end of the work. We had to find out important facts about partners countries online, decide which information is relevant and interesting.

## Activity number P8 - Planting and growing

Taken in three steps (preparatory stage, growing and planting itself, recording the results and the process). Each of the schools has got their own different conditions for growing and planting, depending on the climate of the country and possibilities of the school.

Kolin school from The Czech Republic has a small garden with wooden vegetable and flower beds, surrounding the outdoor classroom.

Rafina school has profound aquaphonic system.

School in Cardedeu uses „small field” for their planting.

Paitsy school from Bulgaria shared their experience with indoor planting.

Latvian school created fantastic posters.

## Activity number C2, C3, C4 - short - term exchanges of groups of pupils

### TEACHERS MEETING IN KOLÍN

16th - 18th Oct 2018

Before our students would meet, we felt it would be a good idea to meet personally with teachers.

11 teachers from all of the schools met in Kolín and prepared detailed schedule of all project activities. They got familiar with the coordinating school. All of us spent lovely three days hard working, meeting with the Kolin school students, visiting the lessons and participating at some English language lessons. The group of teachers visited Kolin town hall and met with the mayor of Kolín, Mr. Rakušan.

Teachers visited the capital of the Czech republic, Prague as well.

### 1st STUDENT EXCHANGE IN KOLÍN

Kolín, 12-18th May 2019

38 students, 13 teachers

Students got familiar with each other personally. They experienced the week full of various activities, they found out and shared many information about their partners' countries. They got familiar with the environment and nature protection in their countries.

The sports morning took place as well as many trips - to Prague, Kutná Hora.

Students visited the natural protected areas - Meadow forests near Kolín and Drábské světničky - the gate in to the Czech paradise.

We did not forget about our project activities - planting and seeding - which took place in the outdoor area at Kolin's school. Each of the group of the students planted their own vegetable bed- so there are Czech, Spanish, Latvian, Bulgarian and Greek beds of herbs and flowers, reminding the meeting and cooperation.

We even cooked together - each group of students prepared one of their national recipes - all of them were delicious!!!!

### C3 – 2nd SCHOOL EXCHANGE IN RAFINA

13 th – 19th October 2019

42 students, 11 teachers

Students and teachers from all schools met in Rafina, Greece. Accommodation was provided by host families, as was the case in the CR. The students dedicated themselves to the project activities - helping nature and cleaning the beaches as part of "The beaches cleaning day". There were some excursions to Athens, the capital of Greece, to the island of Andros and to the wider area of Kalavryta in the Peloponnese.

Of course, the students and their teachers also spent a lot of time in Rafina, at school, participating in classes and chatting with their friends.

During the meeting the students became familiar with the Greek climate, the differences compared to CR and they learned a lot about the fantastic Greek history, sights, landscape and people.

### C4 - 3rd SCHOOL EXCHANGE IN CARDEDEU

Due to the Covid situation we strongly believe that we will be able to meet with our friends at least online in spring 2021.

COOKING - TRADITIONAL RECIPES (WE DIDN'T ONLY WORK, WE HAD A LOT OF FUN AS WELL, WE DIDN'T ONLY OBTAIN A LOT OF INFORMATION, WE FILLED BELLIES AS WELL.)

This activity showed us differences and similarities in our cuisines. Groups of students prepared traditional recipes from their countries and compared the results of their work with other groups.

## GREEK SALAD

4 medium juicy tomatoes  
1 cucumber  
1 green bell pepper, cored  
1 medium red onion  
olives  
salt  
olive oil  
greek feta cheese  
dried oreganos

Wash and drain the vegetables.  
Cut the cucumber, pepper, onion into slices.  
Cut the tomatoes into large pieces and add the cucumber, pepper, onion, olives and feta cheese.  
Add salt, oil, oregano and mix.

Egg spread  
Ingredients:  
5 hard boiled eggs,  
mayonnaise, salt, chives,  
ground black pepper (if  
wished), 5 pieces of rolls

Shell the eggs. Chop into tiny pieces with the rest of the ingredients and one teaspoon of chopped chives, add salt and put this mixture onto the slices of bread.

BANITSA . . . a famous traditional Bulgarian dish eaten at any meal, prepared by layering a mixture of whisked eggs and pieces of sirene (white cheese) between filo pastry and then baking it in an oven. Banitsa is served for breakfast with plain yogurt. It can be eaten hot or cold. Another popular version is banitsa with spinach.

Preparation: Take 12 pastry sheets (phyllo). Grease bottom of a pan with butter or oil. Brush 3 sheets with butter. Place sheets one atop the other. Spread 1/3 of filling. Top with 2 more sheets, each brushed with butter or oil. Spread second third of filling. Repeat one more time. Top last layer of filling with 3 oiled sheets. Bake in a moderate oven until a wooden pick inserted in center comes out clean  
Ingredients: 4 eggs pinch of baking soda  
1/4 kg white cheese Beat eggs, adding baking soda, keep beating and add crumbed (or grated or crushed)

BREAD WITH TOMATOES Sliced bread garlic, tomatoes, olive oil, salt, serrano, ham. RECIPE: STEP 1. Slice the bread. 2. Toast the bread. 3. Cut the garlic in a half and rub the garlic on toast. If you don't like the garlic taste don't rub it. 4. Cut the tomatoes in half. Rub the tomatoes on toast. The secret is to cut the tomato like this. 5. And drizzle with olive oil. 6. Sprinkle with salt to taste. 7. You can add slices of Serrano ham or cheese

GREY PEAS WITH MEAT AND ONIONS – a typical Latvian Christmas dish  
500 grams grey peas, meat (better smoked), 2 onions , water, spices (salt, peppers), kefir

Soak the peas for 4-5 hours or for a night.  
Wash the peas again and put them into a pot, pour cold water and boil them until they are soft (40min – 1h).  
Take away the spume during the boiling process.  
Put some salt (1 – 2 teaspoons) at the end of the boiling process.  
While the peas are boiling, cut the meat and onions into small pieces.  
Then put all the meat and onions on the pan and fry them.  
Add some salt and grounded black pepper.  
When the peas are ready, pour out all the water through the sieve.  
Mix the peas with the fried meat and onions.  
Enjoy the dish together with a drink „kefir” (very similar to Turkish „Ayran”)

## ACTIVITY P7 – CREATION OF DICTIONARIES

We created „dictionaries“ connected to various topics, but mainly focused to nature, animals, planting.

## WE ASKED A FEW QUESTIONS AND OUR STUDENTS ANSWERED THEM:

What did you like about the project the most?

What do you think you have learned from the project activities?

Did you make any new friends?

Which activity did you enjoy? Which one you did not enjoy?
