## 1<sup>st</sup> Primary School of Rafina

Our School ID

Presentation prepared by Melina, Marialena,  
Georgia, Athina, Dimitra, Doina

# • OUR SCHOOL

Welcome to the **1st Primary School of Rafina**. It is one of the 4 schools in our area and was built in **1978** in the center of town. It is painted gray with light green and shares its premises with the 4th Primary School of Rafina.

- To explore it, you must first choose one of its 3 entrances. It is impossible not to be impressed by its external beauty when you come across the spacious courtyard, which has a basketball court, a volleyball court and a well-kept aquaponic garden with different types of plants and fishes. In one corner there is the canteen and near it the water taps.

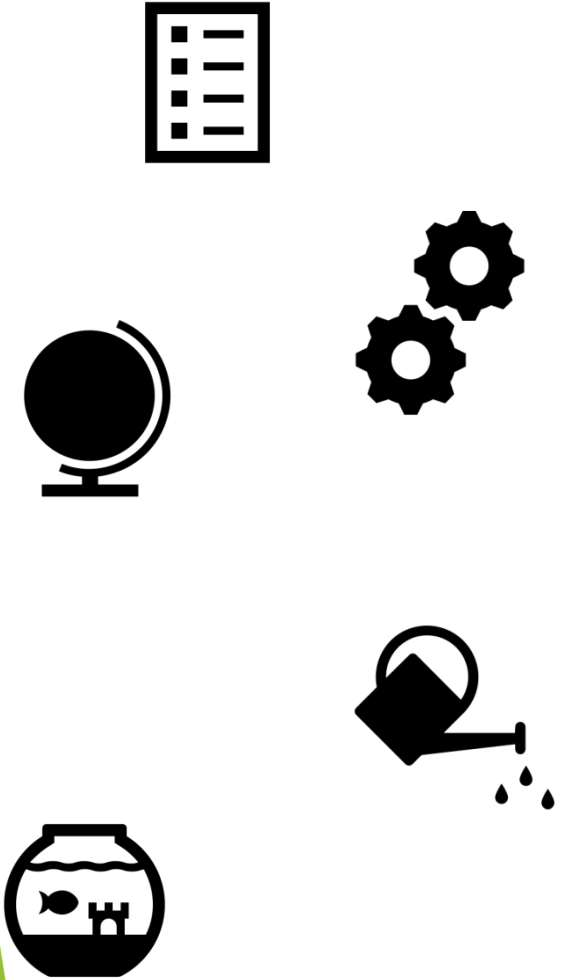

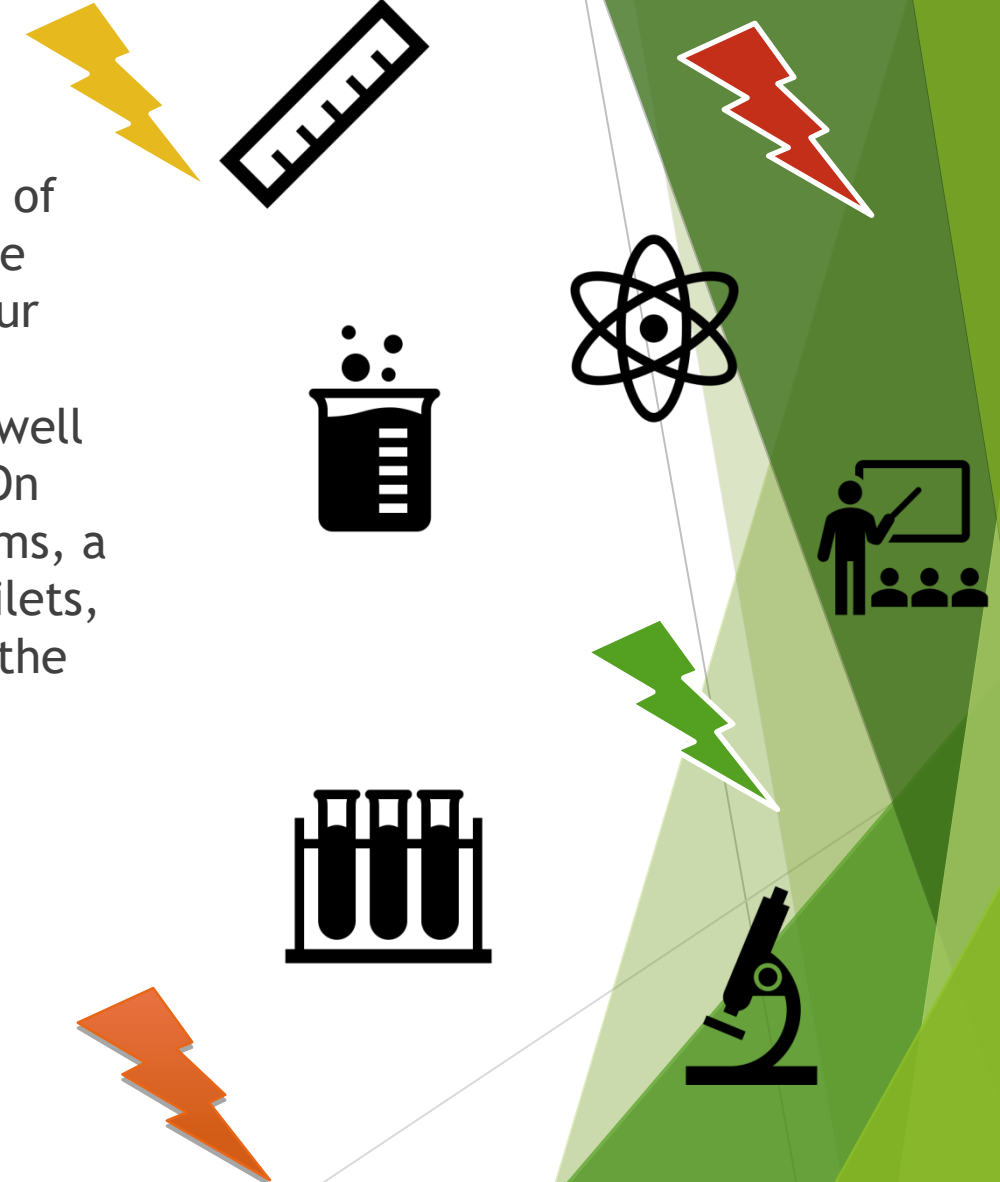

- Entering the building, the first thing we see are the classes of the youngest children, the offices of the teachers, the office of the principal and our newly renovated toilets. Next to the classrooms we also find the event hall, which is used mainly in winter for physical education classes, official events and as a venue for all-day activities. Directly next to the halls is also our small, fine storage room, where we can store all the things we need for the sports lessons.

- A little further from the classrooms of the younger children is the corridor with the marble-covered staircase leading to the second floor. There we find the older children's classes, which are quite large and all equipped with projectors for more modern and easier learning. To the left of the classes is our small library, painted with happy colors. We can borrow books from the library so that we can practice reading. In the middle of the corridor is the computer room which has 14 computers so we spend our time learning more about them. On the right side of the corridor we find the class where foreign children take special Greek lessons.

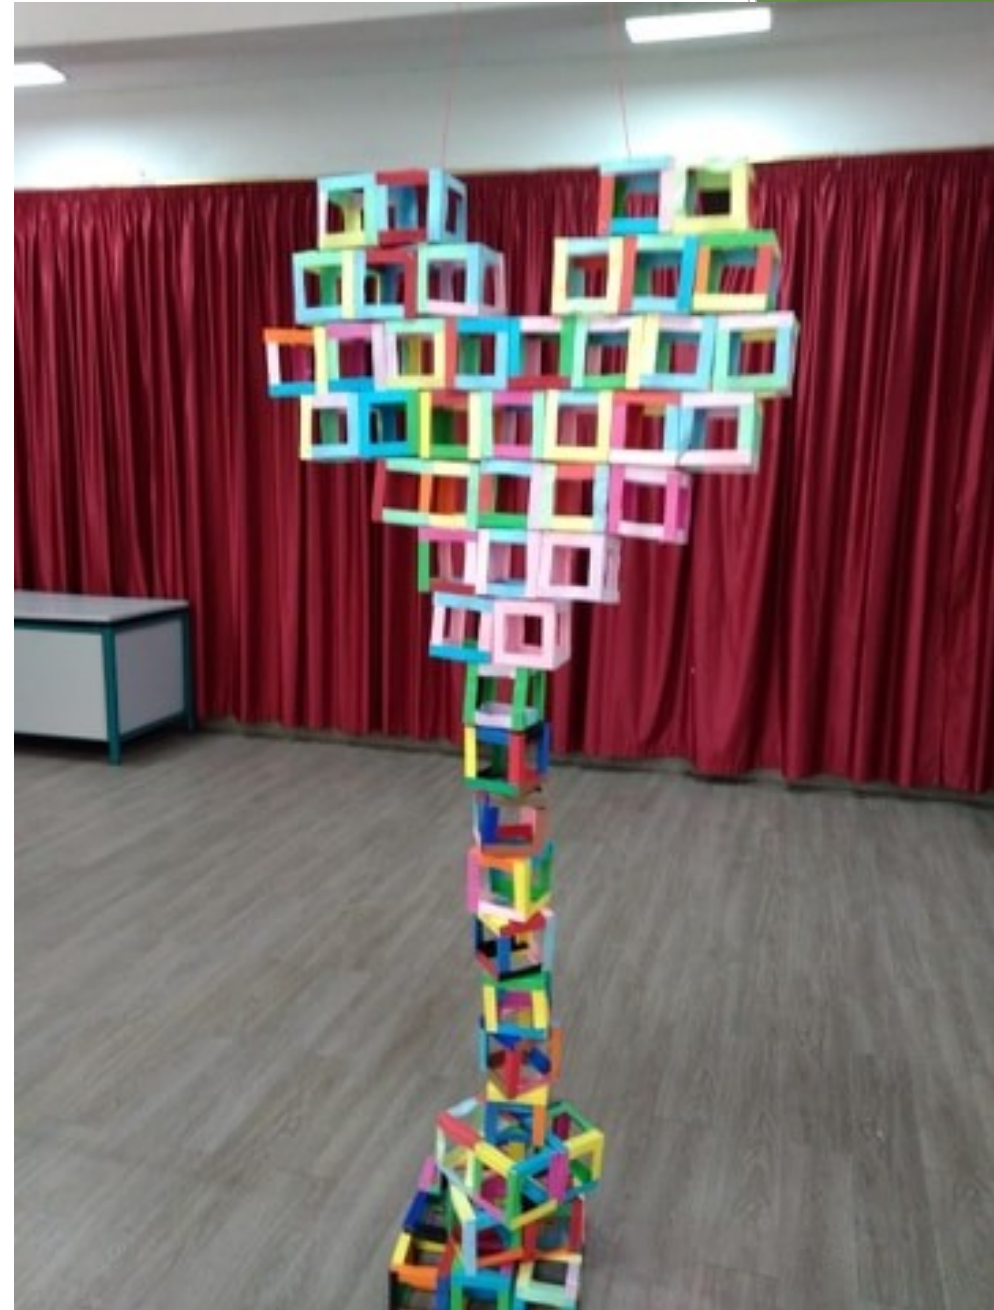

- 
- ▶ Looking out the large windows of the classrooms, we also see the second two-story building of our school, which has colorful and spacious classes for young, as well as for slightly older children. On the first floor are the classrooms, a small storage room and the toilets, while the second floor houses the physics workshop and our aquaponics system.
- 

## The Staff Members of Our school

Presentation prepared by Konstantinos K.,  
Aigaias, Michail, Christina, Alexandros,  
Ektoras)

There are 35 teachers working at our school. Some of them work in other schools too. Our principal is in charge of the school. From the total number of teachers 12 are in charge for the 12 classes, 3 are teachers of English language, 1 of French, 1 of German, 1 of theatrical education, 1 of arts, 3 Physical Education trainers, 1 ICT teacher and 1 teacher responsible for the all-day program.

## The Daily Programme of our School

Presentation prepared by  
Konstantinos St. Philippos, Stella,  
Vasilis, Giannis, Dimitris

# School Time Schedule

School is open Monday through Friday from 8.30 am to 4 pm. Morning school is compulsory and is divided into six teaching hours.

The first break lasts 20 minutes from 9.40am to 10.00am. The second break lasts 15 minutes from 11:30 a.m.

to 11.45am, while the third break lasts ten minutes from 12.25pm to 12.35pm. At the end of the last lesson, at 1.15pm, children who do not attend the optional all-day school go home. This is followed by the optional all-day program, which is divided into three (3) periods with two fifteen-minute breaks between 2:00 p.m. and 4:00 p.m. Students in the full-day program have the option of leaving at 3:00 p.m.

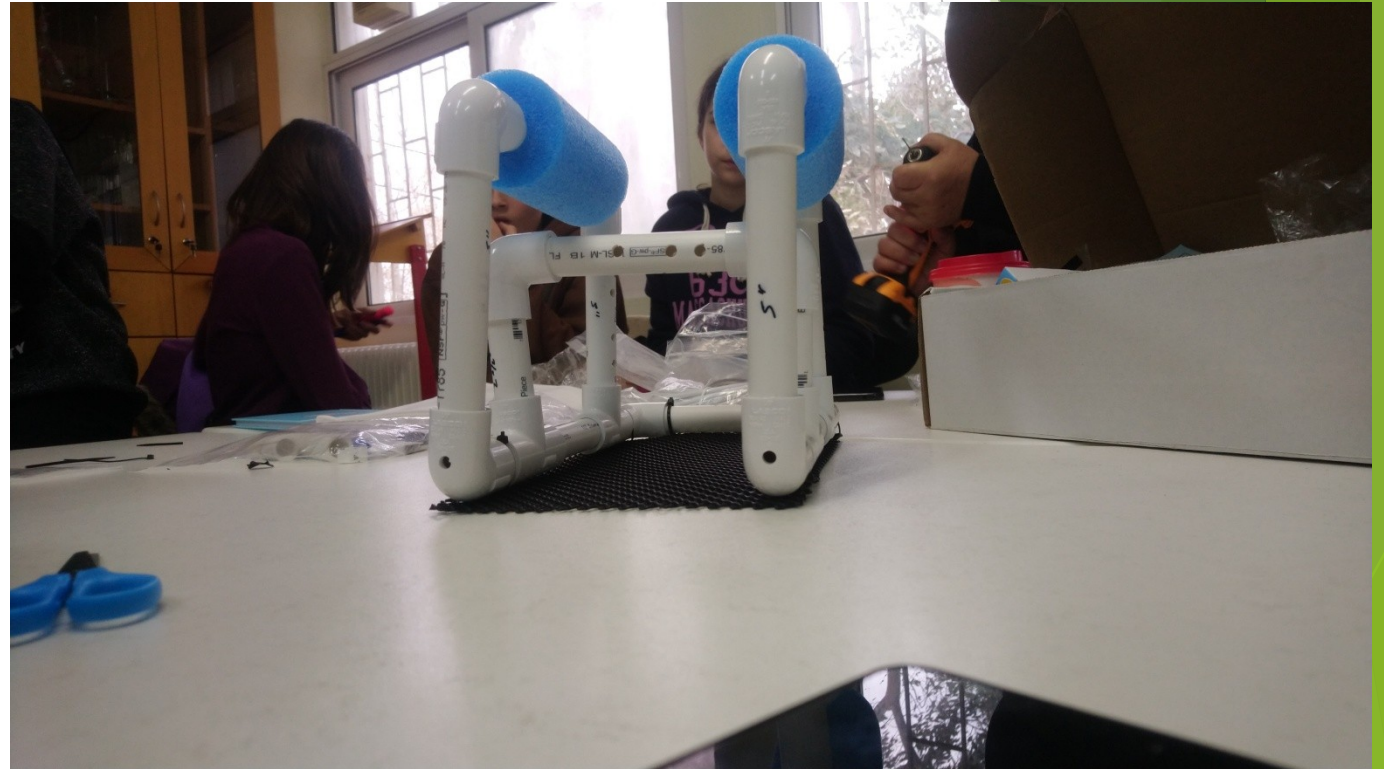

In addition to being a learning space, school is also a place of fun and socialization. It is in this space that we build our best friendships.

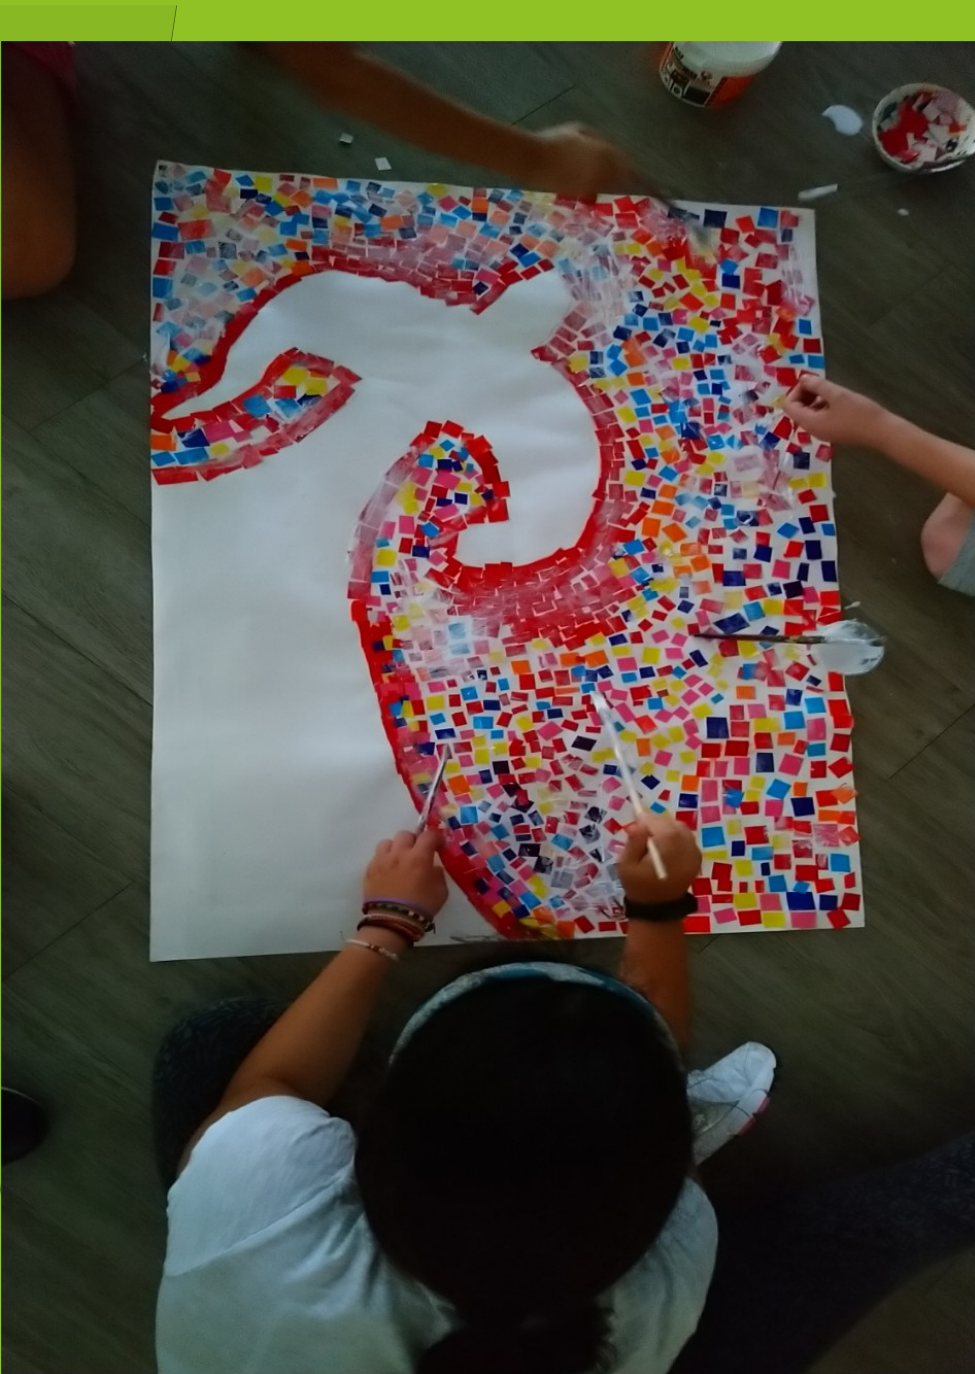

## Our School Subjects

Presentation prepared by Sofia, Maria, Danai,  
Konstantina, Romina, Sabjola

Language: we learn to write, read and come into contact with the basic concepts of grammar.

Mathematics: we understand the meaning of numbers.

Environmental Studies: we observe the world and our habits.

Visual arts: we express our feelings and becoming more creative.

Physical Education: we learn to work together and get in touch with different sports.

# School Subjects and their Goals

Music: we hear and learn simple sounds, songs, and can be entertained.

English: we learn a foreign language

Theatrical education: we are entertained by a play and have fun.

Information Technology (ICT): we learn how to use learning applications.

History: we get in touch and learn interesting facts about Greek and world history

Religious: we discover pictures and stories about Christianity.

# School Subjects and their Goals

Physics: we learn to interpret natural phenomena.

Geography: we learn about maps and Greece.

Social and Political Education: we learn about laws, government and Europe.

French or German: We're getting in touch with a new foreign language.

Flexible Zone: we do experiential activities

# School Subjects and their Goals

# Excursions we take

- ▶ The Acropolis Museum
- ▶ The Acropolis Museum is an archaeological museum that focuses on the finds of the archaeological site of the Acropolis of Athens. The museum was built to house all the objects found on the sacred rock of the Acropolis and at its foot, covering a wide period from the Mycenaean period to the Roman period and Paleo-Christian Athens.

# Excursions we take

- ▶ The Athens Concert Hall
- ▶ The Athens Concert Hall, better known as Concert Hall or Megaron, is a venue for musical and cultural events and conferences. Its building is located in Athens at Vasilissis Sofia Avenue and its official opening took place on March 20, 1991. It is considered one of the most famous venues of its kind in the world for both classical and traditional Greek music. Every year, the Concert Hall organizes a total of about 500 events, such as performances of classical music, opera, theater, dance, etc.

# Excursions we take

The National Archaeological Museum of Greece is one of the most important museums in the world in the field of Ancient Art. Its collections represent all cultures that flourished in the Greek area from prehistoric times to the end of the Roman period.

The museum is located in Athens, on Patision Street and next to the historic building complex of the National Technical University of Athens.

# Class St ' 2

We would like to thank you very much for viewing our presentation. It was a great pleasure for us!
